

**IL CPS Conference
September 12-13, 2007
Bloomington, IL**

Pre-Conference Tours of State Farm and Mitsubishi

Tours of the State Farm Vehicle Research Facility and Mitsubishi Motors North America will be held on Wednesday, September 12, 2007. Each tour holds a maximum capacity of 25 people, and will offer (1) child passenger safety continuing education unit.

For security purposes, you will have to bring your driver's license to the tour and you must pre-register through the Illinois Department of Transportation-Division of Traffic Safety. If you are not pre-registered, you will not be able to attend the tour. Please download the conference registration brochure to sign up.

State Farm Vehicle Research Facility
2309 E. Oakland Ave, Bloomington, IL

The State Farm Vehicle Research Facility studies new and ever-changing technologies in the automotive world. In-house staff are automotive experts with the latest information on air bag deployment, seatbelt pre-tensioners, reinforced steel and hybrid cars. Today's vehicles are built for safety and the State Farm Vehicle Research Facility will give technicians a birds-eye view into exciting new technology and the science behind reducing crash severity.

Mitsubishi
100 N. Mitsubishi Mtwy, Normal, IL

Mitsubishi Motors North America, Inc. (MMNA) has built some of the most distinctively styled, authentically new, high-performance vehicles on the roadway. In 2005, nearly two-thirds of the Mitsubishi vehicles sold in the U.S. were actually built at their Central Illinois manufacturing facility. Mitsubishi cars provide a unique blend of spirited performance, inspired design, and durability. During the Mitsubishi tour, in addition to updates on new vehicle safety features, technicians will learn about Kids Safety First. Founded in 2004 by Mitsubishi employees, Kids Safety First is a national non-profit organization dedicated to promoting automotive child safety. For more information, please visit their website at www.kidssafetyfirst.org.
