

Rear Facing (birth - age 2+)

- Safest way to travel
- Always in the back seat and never in front of an active air bag
- Recommended until child has outgrown height or weight limit on seat
- Harness straps should come from at or below the shoulder and be snug enough that excess material cannot be pinched
- Seats that rear face: Rear Facing Only (carrier and base), Convertible (rear facing to forward facing, 3-in-1 (rear facing to forward facing to booster)
